

CASPIAN MINING EXPO *Azerbaijan*

31 March-2 April 2027
Azerbaijan - Baku
Baku Expo Center

The First and Only Mining Fair of the Caucasus

Azerbaijan possesses significant reserves of gold, copper, iron ore, aluminum raw materials, and industrial minerals, making it one of the emerging mining markets in the Caucasus and Caspian region. In recent years, the opening of new mining sites in the Karabakh region, along with infrastructure projects, railway, and logistics investments, has propelled rapid growth in Azerbaijan's mining sector.

Strategically located between Europe, Central Asia, and the Middle East, Azerbaijan is becoming an important logistics and trade hub not only for its own mining industry but also for mining projects in Kazakhstan, Uzbekistan, and other parts of Central Asia.

“Secure Your Place in a State-Supported Growing Market.”

A Gateway to Central Asian Mining Projects

Thanks to the Caspian Sea ports, the Baku-Tbilisi-Kars railway line, and international transport corridors, Azerbaijan serves as a key transit point for accessing Central Asian mining projects.

For companies providing equipment, engineering, and logistics services to mining projects in Kazakhstan, Uzbekistan, Turkmenistan, and Georgia, Azerbaijan is a strategic hub.

Azerbaijan Mining Expo; The Azerbaijan Mining Expo is an international mining fair and conference that brings together mining companies, mining equipment manufacturers, engineering and EPC firms, investors, public institutions, and logistics companies.

As part of the expo:

- International participating companies
- Mining companies and project owners
- Ministries and public institutions
- Investors and financial organizations
- EPC and engineering firms
- Logistics and transportation companies
- Conferences and technical presentations
- B2B business meetings
